

COOL-R KITS

COOL-R KITS

If you're considering a refrigerated van, let's have a conversation about your needs and expectations.

FG Products has the experience to help you find a solution, even if it is not with us.

COOL-R DESIGN & FEATURES

- HACCP friendly gelcoat surfaces. Chemical and steam clean safe.
- Anti-slip entry and egress surfaces.
- Ultra-bright LED moisture sealed lighting package.

COOL-R ADVANTAGES

- Excellent thermal values. The COOL-R is rated to handle frozen applications. Temps as low as -22F have been reached using the COOL-R Kit.
- Ships on one pallet to the installer or distributor.
- Removable/replaceable components. Simplify repair and improve re-sale market options.
- The COOL-R will accommodate all refrigeration units to fit your distribution requirements.
