

CENTER PARTITION SYSTEMS

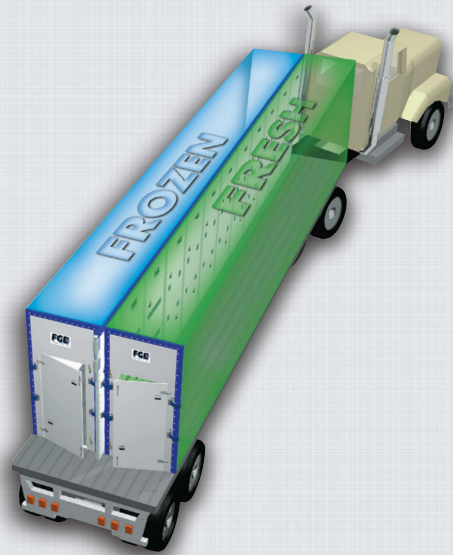

The Best in the business

For many distributors, dividing the trailer/body down the center is more efficient. Each route is challenging for loaders, drivers and temperature requirements.

FG Products can provide you with innovative options to open new opportunities.

We offer:

- Composite Construction
- 12" HDPE Scuff Liner
- Corrosion Free Hardware
- Completely Recessed Hardware
- Ergonomic Handle Placement
- Stock and custom panel sizes to fit your exact requirements.
- Extrusions designed to be easily replaced in high impact areas.
- No through bolting.
- Additional logistic track locations for maximum flexibility.
- One piece top seal

Center Partition Configurations

Utilize our configuration expertise to develop a system specific to your distribution requirements.

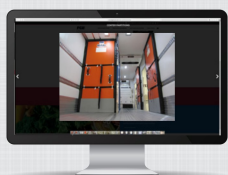

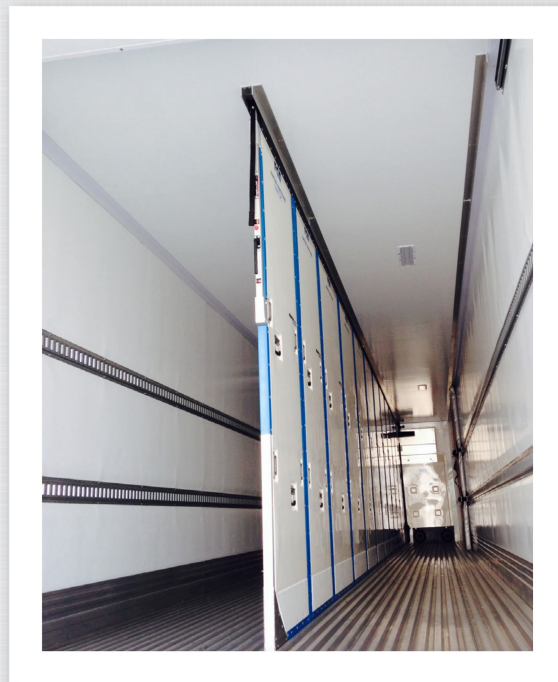

PANELS ARE COMPATIBLE WITH EVERY TRAILER, BODY, & REFRIDGERATION MANUFACTURER.

IMPROVED EFFICIENCY • IMPROVED FLEXIBILITY • IMPROVED FOOD AND DRIVER SAFETY
